Product portfolio

Why choose Us

In Field

- Returns per hectare
- **♣** Quality
- Efficiency (real-time insights)
- Traceability
- + Land management
- Sustainability (reducing) carbon emissions)

- ♣ Milk production and protein %
- + Efficiency (less feed refusal DM intake + traceability)
- + Herd health
- + Sustainability (reducing feed costs)
- ♣ Improving Income **Over Feed Cost**

DINAMICA GENERALE S.p.A.

Product Portfolio

Leading technology for smart agriculture, precision feeding and on-board applications

Who We Are

Dinamica Generale is among the key players in the field of weighing systems, electronic solutions, NIR sensors and cloud software for the Feed & Food industries, Agriculture, Industrial, On-board applications, Medical & Healthcare.

Zeltex is a pioneer in the devolpment, production and sales of portable NIR analyzers for fuel, gasoline, ethanol blended fuels, feed and food since 1992

By embracing Zeltex as part of the group, Dinamica Generale created an industry changing company to deliver new and exciting solutions for customers worldwide and deploy innovations and technology that serve a rapidly changing world.

Where to Find Us

our distribution channel, we were also expanding our footprint into new global markets. We provide our solutions in more than 60 countries worldwide offering customers' professional advice, valuable products and aftersales support thanks to a comprehensive network of service partners. Along with our corporate headquarter located in Italy, we can count on a new production site in the US as well as global offices in Ukraine, China and India.

Offices

60+ Countries sales coverage

Systems & Applications

On-Farm

Trailed feed mixer

- Weight Indicator: DG8000-IC
 NIR Analyzer: Evo NIR
 Remote Control: Dina TEL 3 App
 Data Exchange: 3G Modem
 Feeding Management: DTM IC
 Cloud Software

Self-propelled feed mixer

- Weight Indicator: DG8000-IC
 NIR Analyzer: Evo NIR
 Remote Display: EXTRA Display
 Data Exchange: 3G Modem
 Feeding Management: DTM IC
 Cloud Software
 Quality mixing control: VISIOMIX

- Weight Indicator: DG8000-IC
- Automation: Motor Control Box
 NIR Analyzer: Evo NIR

dinamica generale®

MANURE AND SLURRY PROCESSING TECHNOLOGY

Manure spreader

System configurations		Value for customer	Data exchange	Connectivity
SYSTEM 1	Load cells Sensor Logic DG400ECU	Weighing of loaded manure Real-time visualization of remaining load		
SYSTEM 2	Load cells GEOspreader basic Field trace software	Real-time visualization of manure distribution (kg / ha or t / ha). Mapping the quantity of manure distributed through Field trace software	USB	
SYSTEM 3	Load cells GEOspreader superior Field trace software	Automatic manure distribution to keep constant the spreading ratio (kg / ha or t / ha) Mapping the quantity of manure distributed through Field trace software	USB	

FORAGE HARVEST PROCESS MANAGEMENT

Forage harvester

	System configurations	Value for customer	Data exchange	Connectivity
SYSTEM 1	EvoNIR Sensor EvoNIR Docking Station VT or NIR On Board Display (option) Field trace software	Real time analysis of nutrient concentration Quality mapping in the Field trace software	3G/4G modem for execution data USB key for crop quality mapping	ISOBUS J1939
SYSTEM 2	EvoNIR sensor Kali Connection hub VT and/or Field track app (option) Field trace software	Real time ingredient analysis Real time nutrient concentration mapping on Field track app Reports available in the Field track mobile app	• 3G/4G modem	ISOBUS J1939

	System configurations	Value for customer	Data exchange	Connectivity
